SwiftUI TextField Modifiers Reference

Text Field Styles

Modifier	Description	Example
`.textFieldStyle(.roundedBorder)`	Standard bordered style	`TextField("Name", text: $name).textFieldStyle(.roundedBorder)`
`.textFieldStyle(.plain)`	Plain text field without border	`TextField("Name", text: $name).textFieldStyle(.plain)`
Custom TextFieldStyle	Custom conforming types	`TextField("Name", text: $name).textFieldStyle(MyCustomStyle())`

Input Behavior

Modifier	Description	Example
`.keyboardType()`	Number pad, email, URL, etc.	`.keyboardType(.emailAddress)`
`.textContentType()`	Helps with autofill (email, password, etc.)	`.textContentType(.emailAddress)`
`.autocapitalization()`	Controls automatic capitalization	`.autocapitalization(.none)`
`.disableAutocorrection()`	Turns off autocorrect	`.disableAutocorrection(true)`
`.submitLabel()`	Changes return key label (done, go, search, etc.)	`.submitLabel(.done)`

Appearance

Modifier	Description	Example
`.font()`	Changes text font and size	`.font(.title2)`
`.foregroundColor()`	Text color	`.foregroundColor(.blue)`
`.background()`	Background color or view	`.background(Color.gray.opacity(0.1))`
`.cornerRadius()`	Rounded corners	`.cornerRadius(8)`
`.shadow()`	Drop shadow effects	`.shadow(radius: 4)`
`.overlay()`	Overlay views on top	`.overlay(RoundedRectangle(cornerRadius: 8))`

Text Formatting

Modifier	Description	Example
`.multilineTextAlignment()`	Text alignment	`.multilineTextAlignment(.center)`
`.lineLimit()`	Maximum number of lines	`.lineLimit(2)`
`.fontWeight()`	Text weight (bold, semibold, etc.)	`.fontWeight(.semibold)`

Interaction

Modifier	Description	Example
`.disabled()`	Enable/disable interaction	`.disabled(false)`
`.textSelection()`	Allow text selection	`.textSelection(.enabled)`
`.onSubmit()`	Action when return is pressed	`.onSubmit { print("Submitted") }`
`.onChange()`	Responds to text changes	`.onChange(of: text) { old, new in }`

Accessibility

Modifier	Description	Example
`.accessibilityLabel()`	Screen reader label	`.accessibilityLabel("Username input")`
`.accessibilityHint()`	Additional context for screen readers	`.accessibilityHint("Enter your username")`

Layout

Modifier	Description	Example
`.padding()`	Internal spacing	`.padding()`
`.frame()`	Size constraints	`.frame(height: 40)`

Common Keyboard Types

- `.default` - Standard keyboard
- `.numberPad` - Numeric keypad
- `.decimalPad` - Decimal numeric keypad
- `.emailAddress` - Email-optimized keyboard
- `.URL` - URL-optimized keyboard
- `.phonePad` - Phone number keypad
- `.webSearch` - Web search optimized

Common Text Content Types

- `.emailAddress` - Email autofill
- `.password` - Password autofill
- `.username` - Username autofill
- `.telephoneNumber` - Phone number autofill
- `.creditCardNumber` - Credit card autofill
- `.oneTimeCode` - One-time code autofill

Submit Label Options

- `.done` - "Done" button
- `.go` - "Go" button
- `.search` - "Search" button
- `.next` - "Next" button
- `.send` - "Send" button
- `.return` - "Return" button
